In a political way just now, one of the blesseddest of recommendations is to have suffered as a stalwart. One by one the 306 are coming to the front, and the "old guard," which surrendered at Chicago is now ruling the nation.

Meteorological Data.
William S. Block, of Fort Canby, furnishes us with complete meteorological tables for several years, from which we take the following: In 1872 the average temperature was 50 degrees; the maximum temperature being 85 degrees, in July, the minimum 29, in January; the number of days in which rain fell was 156; the rainfall for the year was 67 inches. For '73, average temp., 47 deg.; rainfall 66 inches; for '74, average temp., 46 deg., rainfall 67 in.; for '75, average temp., 50 deg.; rainfall, 83 in.; for '76, average temp., 51 deg., rainfall 72 in.; for '77, average temp., 52 deg., rainfall 77 in.; for '78, average temp., 51 deg., rainfall, 52 inches; for '79, average temp., 49 deg., rainfall, 70 in.; for '80, average temp., 48 deg., rainfall, 69 in.; for '81, average temp., 50 deg., rainfall, 77 in.; number of days on which rain fell in '81, 195. Mr. Block's accuracy in determining these data gives them value as an index of the uniformity of the rainfall and temperature of the month of the Columbia.

On Monday evening the first of the course of lectures for the benefit of the M. E. church will be delivered by Rev. J. H. Acton, D. D. Subject: "Clips from the Diary of Turchin's Thief." On the 24th Rev. John A. Gray will lecture on "The Swing of the Pendulum," and on the 31st Rev. Geo. W. Izer will lecture on "Literature and Fields of Mental Exploration." Tickets for sale at both drug stores. Secure tickets for the course.

We don't suppose it is any use to grumble, but when night after night we only find three or four papers in the box at the post-office, we wonder where in the world the big exchange list of THE ASTORIAN goes to. We exchange with every decent paper that we know of in Oregon and Washington Territory, and sometimes ten days pass without seeing a Walla Walla or Portland paper, except the Oregonian which is always on hand promptly. Whose fault is this? Who nips the papers?

Mr. Gross, the Secy. of the Northwestern Marriage Insurance Co. will remain in town a few days longer answering and explaining to those matrimonially inclined, how to get a start in life. He will call at your house if you desire, or answer by letter, or in person and show you how to make 500 per cent on your investment. His trip here is simply to explain the system of insuring in his company, and not to bore you to death. To us it looks feasible and would think any single person of either sex could avail himself of the advantage in insuring while an opportunity offers.

'Tis thus the Walla Walla Watchman talks to its delinquent subscribers: "So many we find, have paid for their paper 'in their mind,' and in advance, too, that the keeping of books becomes almost obsolete, but we would rather trust to our ledger than to our memory. We wish all men would feel the same way, but they don't. And now, as we glance soberly over our books, lo, we see another vision! One hundred and eighty-one subscribers are behind for one, two, three, and even four years, amounting to over a thousand dollars. Gentlemen, we have to drop you, one and all, until you kill your hogs and pay up."

Attention! Attention!
All those indebted to the Central Market will please call and pay their accounts before the 15th of January, 1882. By so doing they will oblige and save costs. Those that do not comply with this request, their accounts will be closed.
J. ROGERS.

The auction sale this morning by E. C. Holden of lot 2 in block 8, Olney's Astoria, will give some one a chance of purchasing one of the most eligible lots for business purposes in the city. Offering it at public vendue to the highest bidder will test the value our local real estate speculations place on available city property such as this certainly is, being the adjoining lot to the city hall, Rescue Engine Co. building and within one lot of the spacious Pythian hall building. A corner lot in the adjoining block west was lately sold to the Odd Fellows association for \$5,000. The sale will come off at Holden's auction room, at 11 o'clock to-day.

Teachers' Institute.
Promptly at 1:30, Institute came to order, the room being well filled with friends of education. The subject of Geography was presented by Miss Allen, who conducted a recitation with pupils from her room. Her pupils recited beautifully. Prof. Coon then advanced some practical ideas upon Primary Geography work; his remarks being followed by a general discussion of the subject of Map Drawing from teachers present.

Mr. Sloop then introduced the subject of Penmanship. He briefly yet clearly explained his system of teaching it, using nine principles instead of seven, as authorized by Spencer. He thought good penmanship could not be attained as taught in the public schools, and recommended that special teachers be employed for this branch. The subject of Composition Work, Language Lessons and Grammar was presented by F. E. Brown. She recommended special attention to this oftentimes neglected branch of primary work. Discussion of this subject participated in by Prof. Coon, Supt. Parker and F. E. Brown.

Supt. Parker then introduced the subject of Citizenship. In a few appropriate remarks he showed the necessity of instruction upon this subject. Among other remarks we were a little startled to hear him say ere long women will have the opportunity of exercising the right of citizenship. Prof. Coon then detailed a method of instruction in this branch, which seemed practical and worthy a trial.

Institute then adjourned to meet at 9:30 a. m. Friday. The exercises at the Congregational Church in the evening were a decided success and the music was excellent. Prof. Coon read an able article from a school journal, and Miss Allen did herself credit in the rendering of "The School Master's Guests," by Miss Carleton.

Supt. Parker then introduced the lecturer, Rev. C. H. Atkinson, whose subject was "Improved Methods of Instruction." It is no exaggeration to say that all who listened were pleased and instructed. His thoughts were expressed in a happy choice of language, which closely held the attention of the listeners. At the close of the lecture a unanimous vote of thanks was tendered by the audience.

The first exercise in afternoon session was U. S. History and School Apparatus. Subject opened by Mrs. Coon. Miscellaneous discussion followed. Supt. Parker explaining "The Chart of History," which he exhibited to the Institute. Various methods of securing interest in the study of history were discussed by Messrs. Coon, Parker, Sloop, Mrs. Coon, Misses Boelling, Eaton, Brown.

Discussion of School Apparatus was opened by Prof. Coon. He recommended single seats for use of school rooms, raised platform for teacher's desk, more than one chair. Recommendations that primary room have a long, low table, upon which objects can be arranged for instruction in primary grades. There were many good things said upon this subject by Supt. Parker, Prof. Coon, Rev. J. V. Milligan and Miss Brown. As this was the last subject upon programme the Institute adjourned.

All reforms, indeed all that is new and good, go through three stages—suggestion, ridicule, adoption.
